WE NEED TO STRIKE BACK

THE EARTH IS RAPIDLY MOVING TOWARDS A TWO OR MORE DEGREE AVERAGE TEMPERATURE RISE, THE CONSEQUENCES OF WHICH WILL HAVE A DEVASTATING EFFECT ON ALL LIFE ON THIS PLANET

Individual lifestyle change is not enough to prevent this catastrophe. A handful of powerful companies are causing the majority of climate damage and governments are failing to challenge this reckless behaviour.

We have a responsibility to the youth and future generations. We need to act. We need to strike back!

EARTH STRIKE - 20TH SEPT 2019
GENERAL STRIKE FOR CLIMATE

To highlight the damage being done to our planet by capitalism and to organise a working-class response, on 20th Sept Earth Strike are calling on everyone to strike from work and change the system that is destroying our planet.

Go to our website or email us for advice on how you can take strike action in your workplace on 20th September 2019.
